PLAYER EVALUATION

Player's Name
Chase Clatur

Position
SS

Player's Number
15

Height
5'10"

Weight
145

Bats
Right

Team
The Lab 14u

Throws
Right

Evaluation Date
Sunday, July 25, 2021

ATHLETIC SKILLS

Feet

5 - Above Average

Comments

You know a guy has great feet when everywhere he's supposed to be he's on time or early. Doesn't wow you with flashiness, but he showed very good balance and athletic timing.

Hands

4 - Slightly Above Average

Comments

Handled everything clean. Groundballs. Relays. Slow rollers. Throws to second. More substance than image to this player.

Reactions

4 - Slightly Above Average

Comments

Good clock good motor.

Body Control

4 - Slightly Above Average

Comments

Clean actions for the most part. Nothing he does fundamentally shows deficiency.

Strength

4 - Slightly Above Average

Comments

Wiry strength. One important thing of note - He played at a high level with consistent energy with talent for the entire event. Very good physical and mental stamina.

Physical Development

4 - Slightly Above Average

Comments

He's wiry, but it's low gauge. The lower half is where you see the development and athleticism. Has strength and definition. Soccer body.

BASEBALL SKILLS

Fielding

5 - Above Average

Comments

There's a everyday defender in college with this guy. SS now but athletic/instinctive enough to play around the diamond or remain in the middle of the diamond (SS,CF,2B)

Range

4 - Slightly Above Average

Comments

More of a sure defender than a spectacular defender. Finishes plays.

Running

4 - Slightly Above Average

Comments

Plays above/well above. Quick. Smart.

Arm Strength

4 - Slightly Above Average

Comments

If there's a 45 arm this is it. Played well from the mound and around the diamond. Never looked anything but fresh. Projects above average.

Arm Accuracy

5 - Above Average

Comments

Strike thrower on the mound and in the field.

Hitting Ability

5 - Above Average

Comments

Balanced, relaxed stance. Stirs the bat in his set up and to get his approach started. Soft stride and on time. Very good ball strike recognition. Aggressive on good pitches to hit. Patient and disciplined. Uses hands to make the swing. Direct to ball. Quick bat. Short stroke.

Power Potential

4 - Slightly Above Average

Comments

Frequent hard contact. Looks to drive the ball in hitters counts. Showed adjustments with two strikes.

PLAYER SUMMARY

I can see this guy as a college regular in the future. I believe he will be a very good HS player as well, maybe almost immediately (varsity competitive as a 9th grader) He's talented athletically, but what sticks out about him is how good he is at the game itself. He doesn't just know how to play it, he knows how to play it well not just on both sides of the ball, but on the mound as well. At the plate, he raked. On the barrel and gap to gap with most swings. Slugged the entire event. Not singles. Slugging.
The guy he reminds me of young is J.J. Hardy, the former SS with Milw. Just like him, the kid does everything well. Very good player. Very good competitor. Fun to watch.
