PLAYER SUMMARY

Summary/Action

Great body to build on moving forward through his development, good face, and seemingly high baseball IQ, Ashton has potential to make an impact at the next level and beyond. Speed is his dynamic tool, it will give him an advantage at every level, on defense and on the base paths. Defensively, work and drills in a high school program will give him the confidence and opportunity to learn to play with more consistency with the glove. With the bat, the development needs to come in an adjustment to a more situationally aggressive hitter, as well as a patient one he currently shows. His command of the strike zone and more work on approach and aggressive play on offense make him an exciting player at the high school and potentially, college levels.
