PLAYER SUMMARY

Summary/Action

Plus athlete with chance to play beyond high school. CF and RHP but is more suited to play CF. Strong arm along with plus defensive skills will bode well for him to stay in field. Bat a concern at this point. Hits in top of line up but will most likely move down in order at some point. Swing mechanics need attention. Gets long and pulls head. Stiff arm stroke creates slow bat speed. Needs to loosen grip and look to use the whole field with gap to gap approach. No need to look at launch angle or exit velo. All of this will come as he matures. Patience and let nature take its course.
