## PLAYER SUMMARY

Tall, slender look. Wide back, high waist with long legs. Most projectable. Arm worked with good direction to target with short arm arc. Will throw hard very soon. First rattle out of the box this Spring. Ran out of gas and lost focus. Struggled finding his rhythm. Battled through and competed. Gave good effort and didn't give in to hitters. Will improve front extension and get closer to hitter on release. Put your hand in catcher's mitt. Chest and upper body should be well in front of stride foot on release. Like his chances to play beyond high school.
