PLAYER SUMMARY

Summary/Action

Dominating RHP at this level that has a chance to play beyond college. Shows consistent ability to get full extension with good line to plate. Two pitch guy at this time with FB/CB mix. FB plus pitch with him having the ability to throw it for a strike when needed. CB lacks consistency due to different release points. Needs to get to where he throws the CB as he does his FB in regards to release. Will be a power pitcher with ability to control a game on the mound. Gamer that wants ball in tough situations. No fear and does not back down from pressure. Plus upside and ceiling here.
