# PLAYER SUMMARY

## Summary/Action

Good frame RHP with an above average natural feel to pitch and above average command along with strike throwing ability; arm strength with projection; above average feel for Slider and Changeup that he rarely uses. Command and action to both pitches; drop and drive delivery with quick front shoulder often gets him underneath the ball & throwing uphill, when he tires out - this must be addressed to improve and avoid injury; very controlled and aggressive to start the game, lost his cool in adversity and displayed negative emotion on the mound - a big red flag. He is too talented to engage in this type of behavior; with work and development see as JC/Small College Starting Pitcher
