PLAYER SUMMARY

Stocky, well built backstop. Athletic and confident, consistent and a lead by example player. Displays natural instincts for catching, blocking and throwing out runners. Works hard behind the plate, a good receiver, anticipating action with runners on base. Quiet approach behind the plate, uses his feet as good base. Steady as they come with the bat, will hit well to compliment catching abilities. Has tendency to push the ball when throwing in game, but minor correctable mechanic, will only see his arm strength and accuracy improve.
