PLAYER SUMMARY

Summary/Action

Big strong athlete here with chance to play beyond college. This is an athletic specimen. Defensively looks like OF or 1B is future. Move to 1B will take away 2 of his best tools arm and speed. Does pitch but that will not allow him to be on the field daily. Bat will be his calling card Will hit for average and power. Middle of lineup guy that can impact game with bat and legs. Gets long at times with swing trying to do too much. Timing needs to be addressed in that he gets ready to hit late which creates problems. These are all fixable and with his youth time is not a factor. Natural development with the focus on hitting the ball hard where it is pitched will clean up stroke. Impact player with plus ceiling.
