**PLAYER EVALUATION AND SCOUTING REPORT**

The Scouting Report developed by Don Reynolds Professional Baseball Group aims at providing athletes a snapshot of where their skills are currently and where their skills can take them in the future. The goal is to give athletes the grounds to improve their game with specific instruction from some of the best scouting talent in the nation.

TC Top Prospects works with Don Reynolds Professional Baseball Group who provide a collaborative effort on every Scouting Report they produce. With over 200 years of scouting experience from a group of 10+ scouts, they can create a unique scouting report for every athlete. Each report provides a projection of talent, specific instruction for improvement, and baseline rankings for each subcategory of scouting. These rankings are on a 1 to 5 scale, with 3 being average.

College Sports Evaluation produces objective data to give athletes insight into where their skills are currently. In addition, the data in the report can provide hard metrics on hitting and overall athleticism. Combining the objective and subjective data allows athletes to see where their strengths and weaknesses are and improve their overall game. Objective measurement was taken at the camp portion of the weekend on September 16th. If you did not attend, you won't see that portion of the report.

The results from this report are based solely on how the athlete performed in one day. Other factors play into skill level, and the report does not reflect the ability to improve or regress.
