Has frame to add mass and will as he develops. Athletic look to body and with maturity he should fill out well.

Clean glove work and transfer to throw. Feet work to put him in good field position and work through ball.

Comments

Appears to get to ready position on time which allows him to accurately read ball off bat.

Comments

Takes time for him to get into high gear. Runs well as he gets into running gait. This will improve as he gets more used to this body.

On line from several arm slots. Shows trueness and carry to target.

Comments

Swings it with confidence and intent. Aggressive stroke with feel for strike zone. Stay the course here and he will be an impact hitter as he progresses up the ladder.

Power Potential

4 - Slightly Above Average

Comments

Plenty of power in this bat. Has not tapped into all of it yet. Needs to stay with current hard contact line drive stroke. Power is there in gap to gap form now. Ball will begin to carry further for him as he naturally matures. Stay the course with this swing.

PLAYER SUMMARY

Future offensive impact 3B with power bat. Has a chance to be a special guy in the game as long as he continues to work on skill sets. Has the ability to pitch as well but needs to play everyday. Body will continue to develop as will power skills. Shows ability to play multiple positions but corner infield looks to be future. Bat is the separator here and maintaining current approach will allow him to reach bat potential.
