### PITCHER EVALUATION

#### Player's Name

Logan Schultz

#### Position

RHP

#### Player's Number

13

#### Height

5'11

#### Weight

160

#### Bats

Right

#### Team

USA Prime 14U Mitchell

#### Throws

Right

#### Grad Year

2026

#### Evaluation Date

Sunday, March 6, 2022

## ATHLETIC SKILLS

#### Feet

4 - Slightly Above Average

#### Comments

Steady looking feet were always in good position to field his position or cover 1B.

#### Hands

3 - Average

#### Comments

While glove exchange is very impressive, and he does this effortlessly, as player advances to higher levels of baseball his fielding ability will be challenged to make defensive plays as the game speeds up.

#### Reactions

4 - Slightly Above Average

#### Comments

Mobility off mound, can cover 1B well. Fields bunts out in front of mound. Overall very good athlete that

can move around easily.

### **Body Control**

4 - Slightly Above Average

### **Comments**

Similar to reactions, player showed quickness and agility while maintaining body control. Can repeat delivery. Movement of glove arm to arm was outstanding.

### **Strength**

4 - Slightly Above Average

### **Comments**

Long, loose levers, good body to grow into as he matures. Lean muscle tone with not much body fat that was apparent to me. Sloping shoulders, loose all over. Good overall athletic body.

### **Physical Development**

4 - Slightly Above Average

### **Comments**

Despite good present athletic body, player looks to have plenty of more maturity to come. Dad has size and plenty strong. Player needs to work on maintaining flexibility and looseness as he matures because he will get bigger and stronger.

## **BASEBALL SKILLS**

### **Arm Action**

5 - Above Average

### **Comments**

Loose, quick arm, generates arm speed and velocity quite easily. Good finish on pitches out front, especially FBs.

### **Throwing Effort**

5 - Above Average

### **Comments**

Minimal throwing effort to generate velocity. Low energy and effort, used ease in arm and looseness to generate velocity. Clean from start of delivery to the release point.

### **Arm Strength**

5 - Above Average

### **Comments**

Player showed a very easy velocity. Looking at delivery makes one think he's not throwing hard but ball jumps out of hand at release point. Very deceptive with the FB power and finish. Flashed some 87s FB.

## Delivery

4 - Slightly Above Average

## Comments

Simple, athletic delivery that is very repeatable. Keeps balance throughout. Repeats arm slots and release points very well. Shows a very impressive skills out front. Easy delivery and arm action makes me believe he'll throw harder in future.

## Control

4 - Slightly Above Average

## Comments

Loved the way this guy pitched inside effectively with confidence and courage. Moved hitters' feet and showed ability to widen strike zone. Showed command inside strike zone beyond his years.

## Fastball

5 - Above Average

## Comments

Plenty of reach back velocity. Pitched effectively with fastball and seemed to have a little extra whenever needed. Established fastball with hitters on both sides of plate.

## Off Speed

4 - Slightly Above Average

## Comments

For player's age, he showed complimentary breaking balls with FB. CB showed rotation and depth while the slider was more of a cross zone slurve. Knew how to use them in proper proportion with FB. Pitched off FB and used correct number of breaking balls to keep hitters off balance.

# PLAYER SUMMARY

## Summary/Action

Overall, an athletic pitcher with a loose arm that works and generates plenty of FB velocity and the ability to spin the ball. Appears to have overcome his challenge with left finger fusion similar to former MLB pitcher Jim Abbot. A four pitch strike thrower with a starter's arsenal. Clearly a good athlete as he's athletic in the batter's box with the ability to swing the bat.. Player's ceiling will be dependent on his size and growth. If his body is on the larger size player should be a D1 college pitcher and possibly a pro prospect.
