PLAYER SUMMARY

Summary/Action

Intense and competitive on the mound, Luke takes charge and sets the tone with his tempo and ability to control the speed of the game. All business on the mound. Shows aptitude, understanding of how to pitch, set up hitters, pitch to contact as well as asses in game, how to adjust to hitters, counts and situations. Has tendency to crossfire delivery at times, falling off glove side, leaving fastball flat and up in zone. Fastball has good ride up in zone, with two seam showing depth and movement, down and away from LH hitter. Command of the change up and spotting fastball makes breaking ball a pitch to show every now and then and used change up well as out pitch. Continued work on polishing mechanics and more confidence with breaking ball, as well as adding arm strength relative to physical growth, not out growing his frame by forcing velocity will give Luke to develop naturally, take care of his arm and allow him to continue playing affectively in the field.
