### PROFESSIONAL BASEBALL GROUP

#### PLAYER EVALUATION

**Player's Name**

Mac Jones

**Position**

C

**Player's Number**

24

**Height**

5'7"

**Weight**

140

**Bats**

Right

**Team**

Illinois Deerfield  
Warriors

**Throws**

Right

**Evaluation Date**

Sunday, June 27, 2021

## ATHLETIC SKILLS

**Feet**

4 - Slightly Above Average

**Comments**

Easy feet behind plate showed ability to move either direction.

**Hands**

5 - Above Average

**Comments**

Best part of his defensive skills group. Really framed and received well. Soft hands. Centered ball like a pro. Very impressive.

**Reactions**

5 - Above Average

**Comments**

Lively, agile body and movements behind plate. Shifted technically correct, showed proper mechanics blocking balls in dirt.

## Body Control

5 - Above Average

## Comments

Agile yet strong and sturdy looking. Player should mature into a very good looking catcher's frame.

## Strength

5 - Above Average

## Comments

Strong through hands, forearms, and upper body. Lower half not overly stocky or thick that it would lack quickness.

## Physical Development

4 - Slightly Above Average

## Comments

Player should have good combination of strength and looseness in body.

# BASEBALL SKILLS

## Fielding

5 - Above Average

## Comments

Good looking defensive skills set overall. Likely will be a pitcher's favorite target to throw to. Mobility in front of plate will add defensive value.

## Range

4 - Slightly Above Average

## Comments

Quickness over raw foot speed. Still, player moves well and covers expected areas around plate.

## Running

3 - Average

## Comments

Just ok run speed for age, though plenty good for his position. Run with head up when on bases to help allow for more of a threat to take extra base.

## Arm Strength

3 - Average

## Comments

Arm needs stretching out. Throws lack enough velocity at present. But hands/release quickness helps make up for some of this by getting ball out of glove and on it's way to target quickly. Better arm strength will make his throwing a threat to base runners.

## Arm Accuracy

4 - Slightly Above Average

## Comments

Throws tended to be on target with proper rotation for a true flight.

## Hitting Ability

4 - Slightly Above Average

## Comments

Nice loose swing. Didn't show enough adjustability in box yet, but has chance to be solid contact, extra base type threat.

## Power Potential

3 - Average

## Comments

Likely just occasional deep threat with current hit approach. Will be plenty strong enough but swing path likely more suited for line drive production. Really like looseness in swing.

# PLAYER SUMMARY

Player is defense over offense at this point but shows plenty of raw strength and bat potential to be two way threat as he matures. Don't lose those excellent hands behind plate. Thought you receives pitches with an advanced look and technique. Stretch out the arm, play lots of long toss. The arm should come along and be at least adequate in coming years.
