PLAYER SUMMARY

Summary/Action

Prototype of modern day power lead off man. Pull away speed, and good baseball awareness and IQ make him an offensive tool on the basepaths. Selfless player, butts and hits behind, drives in runs in proper situations. Strong and large framed infielder, moves quick and explosive like a SS but definite 3B glove skills and footwork. Arm is strong and consistent, playing far above his age group. Hitting needs work to carry him through high school and create next level opportunities. Mechanical issues make him inconsistent, as he matures, with off season work and proper adjustments and approach, has potential to excel at higher levels.
