Sunday, June 27, 2021

ATHLETIC SKILLS

Feet

4 - Slightly Above Average

Comments

Moved well on mound for size/age.

Hands

4 - Slightly Above Average

Comments

Fielded position with balance after delivering pitch.

Reactions

5 - Above Average

Comments

Landed balanced on mound and in good fielding position. Reacted well to come backers.

Body Control

5 - Above Average

Comments

Quite impressive for his age/size. Not gangly or uncoordinated at all.

Strength

4 - Slightly Above Average

Comments

More leverage than raw strength now, but physically tons of room in frame to fill out. Dad also very good athletic frame.

Physical Development

5 - Above Average

Comments

Well along maturity path; shows muscle development without bulkiness.

BASEBALL SKILLS

Arm Action

5 - Above Average

Comments

Clean arm action. Slightly short in back with excellent extension out front. Didn't see any restrictions.

Throwing Effort

5 - Above Average

Comments

Showed no problem getting hand through to release point. Occasionally overthrew a pitch but not a real concern. More of a rhythm consistency issue vs a throwing effort one.

Arm Strength

5 - Above Average

Comments

Excellent for age, and shows lots of upside in delivery, arm action, and body for future velocity potential.

Delivery

5 - Above Average

Comments

Very well coordinated for size/age. Repeated delivery more often than not.

Control

5 - Above Average

Comments

Showed excellent lines to bottom half of strike zone. Really liked angle on low strike FBs. Should only gain more command/control as he grows into frame.

Fastball

5 - Above Average

Comments

Excellent velocity for age. Ball comes out of hand easy. Very good leverage and lines.

Off Speed

4 - Slightly Above Average

Comments

Told me after game he had CHG but didn't show it in game (coach calling pitches). Spin on CB was inconsistent but the better ones showed shape and utility inside strike zone.

PLAYER SUMMARY

Very impressive combination of present tools for age and future ceiling to both body and tools. Frame has starting pitcher written all over it. Will throw enough strikes to bolster chances of starting. Will grow into a strong, durable athlete that should be able to absorb innings in a starting role. Develop CHG!! Work on command inside strike zone. Already throws good strikes; now work on hitting specific spots inside zone.
